

**Hamid Bros supply an extensive range of gemstones
from small calibrated sizes to larger individual gems.**

10.7mm, 4.97ct

Peridot

The birthstone for August, Peridot is an attractive green gemstone. It looks wonderful on its own and also compliments other gemstones like Amethyst, Garnet and Citrine.

Peridot is mined in several countries including Burma (Myanmar), China,

Pakistan and Tanzania and large fine quality stones are gaining in popularity and price. Ancient Egyptians named it the "Gem of the Sun" when they first mined it on the island of Zabargad (St. John's) in the Red Sea.
